CSS "RESPONSIVE" & MEDIA QUERIES

NOTE:
Bellow values are just examples. You should ALWAYS create break points based on your layout!

"DESKTOP FIRST" APPROACH

Default width: **>= 1280px**

1st breakpoint: **@media (max-width: 1024px)**

2nd breakpoint: **@media (max-width: 768px)**

3rd breakpoint: **@media (max-width: 480px)**

"MOBILE FIRST" APPROACH

Default width: **< 480px**

1st breakpoint: **@media (min-width: 480px)**

2nd breakpoint: **@media (min-width: 768px)**

3rd breakpoint: **@media (min-width: 1024px)**

BOOTSTRAP APPROACH (Mobile first)

Default width: **< 576px**

1st breakpoint: **@media (min-width: 576px)**

2nd breakpoint: **@media (min-width: 768px)**

3rd breakpoint: **@media (min-width: 992px)**

4th breakpoint: **@media (min-width: 1200px)**
